

Active Ceramide 3 liposome

Catalog: Lipo-166C-C

PRODUCT INFORMATION

Name Active Ceramide 3 liposome

Cat No. Lipo-166C-C

Product Overview

This formulation contains liposomes made of phospholipids from soy lecithin and ceramide 3. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. The major cosmetic purpose of ceramides is to support the skin barrier function. Making up at least half of the skin barrier, ceramides play an integral role in skin integrity, protection against the elements, and skin structure. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.

Active Ingredients Ceramide

Form Viscous Nano Concentrates

Concentration 2%

Storage Protected from light at room temperature.
