

Active Glutathione Liposome

Catalog: Lipo-216C-A

PRODUCT INFORMATION

Name Active Glutathione Liposome

Cat No. Lipo-216C-A

Product Overview

This formulation contains liposomes made of phospholipids from soy lecithin and reduced glutathione. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. Glutathione, a tripeptide of cysteine, glycine, and glutamate, is a primary antioxidant in the body and plays important roles in maintaining intracellular thiol status and in detoxification. This product is intended to produce specific lotions, creams, and gels. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.

Active Ingredients Glutathione

Form Viscous Nano Concentrates

Concentration 3%
