

# Active Olive Extract Liposome

Catalog: Lipo-224C

## PRODUCT INFORMATION

---

**Name** Active Olive Extract Liposome

**Cat No.** Lipo-224C

**Product Overview**

This formulation contains liposomes made of phospholipids from sunflower lecithin and Olive Extract. The liposomal delivery system protects the active ingredient making it to reach the target cells more efficiently. Olive leaf extract (OLE), a naturally extracted product from olive leaves, contains oleuropein and other bioactive phenolic compounds. Oleuropein was identified to have various medical properties. It was also found to inhibit the effects of both acute and chronic UVB-induced skin damage as well as accelerate wound healing activity. Product designed to be used in cosmetic formulation in the range of 5 to 10 % respect to the final product.

**Active Ingredients** Olive Extract

**Form** Viscous Nano Concentrates

**Concentration** 15%

**Storage** Protected from light at room temperature.
