

Lifciguat Loaded Liposomes

Catalog: Lipo-006RG

PRODUCT INFORMATION

Name	Lifciguat Loaded Liposomes
Cat No.	Lipo-006RG
Product Overview	Lifciguat (YC-1) is a nitric oxide (NO)-independent activator of soluble guanylyl cyclase (sGC) and an inhibitor of Hypoxia-inducible factor-1alpha (HIF-1alpha). This product is a PEG modified pre-formulated liposome with Lifciguat (YC-1) loaded. It is supplied ready to use in vitro or in vivo studies.
Lipid Composition	/
Active Ingredients	Lifciguat
Form	Liquid
Storage Buffer	292 mM sucrose, 0.5% DPBS (1X)
Concentration	2.5 mg/mL (Concentration Cefixime); Lipid Concentration 60 mM
Stability	At least 1 month
Storage	2 °C to 8 °C (do not freeze), protect from light
