

Nexturastat A Loaded Liposomes

Catalog: Lipo-010RG

PRODUCT INFORMATION

Name	Nexturastat A Loaded Liposomes
Cat No.	Lipo-010RG
Product Overview	Nexturastat A is a potent and selective HDAC6 inhibitor with IC50 of 5 nM, >190-fold selectivity over other HDACs. This product is a PEG modified pre-formulated liposome with Nexturastat A loaded. It is supplied ready to use in vitro or in vivo studies.
Lipid Composition	/
Active Ingredients	Nexturastat A
Form	Liquid
Storage Buffer	292 mM sucrose, 0.5% DPBS (1X)
Concentration	2.5 mg/mL (\pm ~5%) (Concentration Nexturastat A; Lipid Concentration 60 mM)
Stability	At least 1 month
Storage	2 °C to 8 °C (do not freeze), protect from light
