

# Neutral Clodronate Liposomes

Catalog: NCL-002L

## PRODUCT INFORMATION

---

<b>Name</b>	Neutral Clodronate Liposomes
<b>Cat No.</b>	NCL-002L
<b>CAS</b>	22560-50-5
<b>Product Overview</b>	<p>Lipid composition: phosphatidylcholine and cholesterol. Active: clodronate disodium. CAS: 22560-50-5. Clodronate disodium (liposome encapsulated): 7mg/mL</p> <p>To meet the demand for clodronate liposomes with long shelf-life. We offer one year shelf-life guarantee from the time of delivery to the date of reconstitution. Just reconstitute by adding sterile pure water and mix.</p>
<b>Lipid Composition</b>	POPC; CHOL
<b>Active Ingredients</b>	Clodronate Disodium
<b>Application</b>	Liposome production; Synthetic lipid
<b>Form</b>	Lyophilized cake/powder from PBS (10% sucrose, 20mM Na phosphate), pH 7.0-7.5
<b>Stability</b>	<p>Shelf-life: 12 months for dry cake (guaranteed, replacement only, starting from the date of delivery)</p> <p>Shelf-life: 3 months sterilely reconstituted (guaranteed, replacement only)</p>
<b>Storage</b>	Store at 2-8 centigrade.
<b>Synonyms</b>	Neutral Clodronate Liposomes
