

Cholesterol

Catalog: Lipo-470

PRODUCT INFORMATION

Name Cholesterol

Cat No. Lipo-470

CAS 57-88-5

Product Overview

Cholesterol is an essential lipid with an important structural role in building and maintaining cell membranes, modulating fluidity and permeability. Cholesterol is formed from lanosterol and is converted to bile in the liver. Abnormally high blood cholesterol levels are associated with cardiovascular disease.

Purity 95%

Application Liposome production

Molecular Mass 386.65

Storage Store at 4°C or below.

Synonyms 57-88-5
