

PNExoTM Exosome-Rhodomela

Catalog: PNE-ARH09

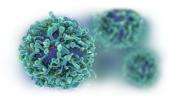

PRODUCT INFORMATION

| Name | PNExo TM Exosome-Rhodomela |
|------------------|---|
| Cat No. | PNE-ARH09 |
| Source | Rhodomela |
| Product Overview | PNExo TM Exosome Series (Exosomes isolated from Algaes) are nanosized (30-150 nm) membrane vesicles ex |
| | racted from Algae, rich in bioactive molecules and proteins, including Rhodophyta, Phaeophyceae, Chlorophy |
| | a, and Cyanophyta. These naturally derived nanoparticles contain a variety of bioactive molecules and protein |
| | s, which have been proven to offer numerous benefits in skincare, drug delivery, and biomedicine. Algae exos |
| | mes, with their antioxidant, anti-inflammatory, and anti-aging properties, have become an attractive option for |
| | the development of innovative therapies. Natural substances derived from algae are widely used as cosmetic in |
| | gredients because they provide benefits to human skin, such as anti-aging, moisturizing, whitening, regenerati |
| | n, and nutritional supply. Moreover, they have the potential to deliver therapeutic compounds to target cells, v |
| | hich could revolutionize drug administration methods. Overall, algae-derived exosomes hold significant prom |
| | se for a broad spectrum of applications in the fields of medicine and biotechnology. $PNExo^{TM}$ is dedicated to |
| | he production and delivery of high-quality algae-derived exosome products. PNExo TM products undergo a rigo |
| | rous screening and purification process to ensure their high purity and activity. We can provide both lyophiliz |
| | d powder or frozen liquid according to customer requirements. lyophilized powder is beneficial for long-term |
| | torage at 4°C, while frozen liquid should be maintained at temperatures between -20°C and -80°C. Ultracentric |
| | ugation and PEG precipitation have been maturely applied to exosome isolation, and we also possess TFF tech |
| | nology, mainly used for large-scale separation and production of exosomes. Creative Biostructure PNExo $^{\text{TM}}$ e |
| | osome products guarantee higher purity and quality, and we can provide exosome GMP production and CDM |
| | O services to meet our customers' research and production needs. |
| Form | Lyophilized powder / Frozen Liquid |
| Concentration | > 1x10^6 particles |
| Storage | Lyophilized powder store at 4 °C. Frozen liquid store at -20°C to -80°C. Recommended to avoid repeated free |
| | e-and-thaw cycles. |
| Reconstitution | Reconstitute lyophilized exosome by adding deionized water for a desired final concentration. Centrifuge befo |

45-1 Ramsey Road, Shirley, NY 11967, USA
